Consultancy is available to students who are taking any 100 or 200 level course within the CS or IT majors.
 Consultancy is available to students who are taking CSIT 501, 502, 503 and 504 or Math 501 classes
 All other students should see their course professors about questions

Please note that consultancy is not to replace Faculty office hours, but to aid students as they begin their work in computing.

There may be some situations where the GA consultants are unable to help a student either due to time limits or the GA feels the professor needs to be the person to address the questions.

Any questions about consultancy should be directed to Dr. Coutras at coutrasc@mail.montclair.edu
