Adjunct Position Search

Position Title:	Adjunct Faculty
Department:	Department of Computer Science
Vacancy #:	
Job Description:	The Computer Science Department at Montclair State University seeks adjunct faculty applicants to teach Python. The adjunct faculty member will work within a department of faculty dedicated to providing strong hands-on computer science and information technology instruction to a diverse range of learners. Montclair State is an Equal Opportunity/Affirmative Action Institution.
Qualifications and Requirements:	Earned Masters in Computer Science or Information Technology or closely related field. A record of successfully teaching fundamentals of programming in Python to undergraduate students is strongly preferred.
Salary Range:	Salary is determined by state contract.
Anticipated Start Date:	September 1, 2018
Send application materials to:	Applications including a CV, and at least one letter of reference are to be sent via E-mail to coutrasc@montclair.edu (single document in PDF). Please include "CS Adjunct Faculty Application" in the subject line.
Apply By:	Applications reviewed upon receipt.
About Montclair State University:	For 100 years, the history of Montclair State has been one of growth and distinction. We offer all the advantages of a large university — a wide range of excellent undergraduate and graduate programs, a diverse faculty and student body — combined with the individual attention of a small college. At the undergraduate and graduate levels, MSU provides close to 300 majors, minors, concentrations and certificate programs, while remaining accessible and affordable. Our six schools and colleges prepare students to lead productive, rewarding and responsible lives in society and the world. MSU makes the most of its location in vibrant Montclair and just 14 miles away from New York City.

Our 246d acre campus boasts excellent academic
and recreational facilities and an exciting calendar of events
and performances by students and professionals.
Montclair State's Mission Statement and Strategic Plan reflect
the University's expanded role in and ongoing commitment to
educating the students of New Jersey, conducting research,
and serving our local and wider communities.
